

With in excess of 45 years heritage, Bardsley has a solid foundation upon which a dynamic, innovative and creative multi disciplinary business has been built.

The £70+ million turnover Company has grown to be the byword in delivery and customer satisfaction. This success has been secured through our commitment to Partnership and collaborative working with public and private sector client groups including Local Authorities, Education Bodies, Housing Associations, NHS Trusts and Health Authorities.

For these organisations we undertake Design and Build and Traditional contracts with considerable Partnering Arrangements totaling over £120 million of contract value to date. 78% of our contract workload is secured from repeat clients and we have gained appointments to a number of Partnering Framework Agreements with Housing Association consortia and Education providers across the North West of England.
